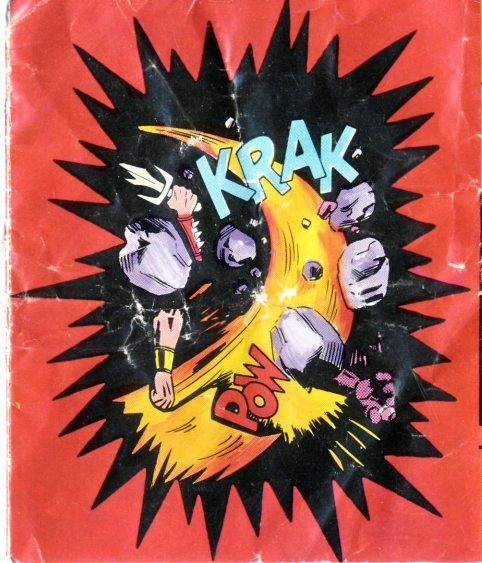
THE OTHER WORLD ™

Many years ago on the planet Glowgon, the great wizard Nilrem passed away. Raidy, Nilrem's finest pupil, became the good king of Glowgon.

His crusade was to locate the Pir'Ankus, an object brought to Glowgon thousands of years ago. It will give its discoverer invincible powers.

After countless trials and battles, they discover that the Pir'Ankus consists of many small pieces, each one buried in a different place. At this time, there is only one piece missing. Raidy commissions his team to go find it.

Let's join our friend and find out what happens.



Meanwhile, Ronin enters the Lost Steps Valley on Gaifand. They sneak into one of the deserted caves where they discover the missing piece of the Pir'Ankus.

Fancy footwork guys... good work! I have here in my hand the last piece of the Pir'Ankus.
Our mission will soon be completed. Let's go tell Raidy.

Time is running out. General Ess-Gee, Warrior Jurka and Ronin must leave before the enemy realizes what has happened! Ronin signals to Gaifand and off they go to Raidy's kingdom.
Will Raidy obtain the invincible powers of the Pir'Ankus now that the last piece is found? Will they make it back alive?
